October 28, 2022

Citizens of the Urbana Park District and the Board of Commissioners,

We are pleased to submit the *Annual Comprehensive Financial Report* of the Urbana Park District for the fiscal year ended April 30, 2022. To the best of our knowledge this report presents a complete and detailed picture of the District's financial operations during the 2021-2022 fiscal year and the financial condition of the District as of April 30, 2022.

This report has been prepared in accordance with the requirements of the Illinois State Statutes and the Illinois Park District Code. The independent auditor's report on the financial statements has been included in this report. We believe the information included in this report is accurate in all material respects and is presented in a manner that fairly sets forth the financial position and results of operations of the District. We believe that all disclosures necessary to enable the reader to gain a thorough understanding of the District's financial activities have been included. Responsibility for the fairness, accuracy and completeness of the information presented is that of the management of the Urbana Park District.

We refer the reader to a discussion by management, which should be read in conjunction with this letter, about the results of this year's operations and any significant changes in the District's fund balances and net position. Management's Discussion and Analysis can be found immediately after the independent auditor's report.

Urbana Park District Structure

The Urbana Park District, organized in 1907, is a separate unit of local government, a municipal corporation under the statutes of the State of Illinois. The District operates under a Board/Manager form of government. The five-member Board of Commissioners is elected to staggered six-year terms in biennial elections.

The District includes 24 parks covering 595 acres. The major recreational facilities include the Phillips Recreation Center, the Anita Purves Nature Center, the Crystal Lake Park Lake House, Brookens Gymnasium, Urbana Indoor Aquatic Center, and the Crystal Lake Park Family Aquatic Center.

The Darius E. Phebus Administration Building located in Leal Park is the administrative center for the District.

The District's Planning and Operations facility is located in Chief Shemauger Park on Kerr Avenue.

The District maintains a storage facility located on Hickory Street.

Economic Condition and Outlook

Like many businesses, the impact of the COVID-19 pandemic continued to shape the operations and financial results of the Urbana Park District in fiscal year 2022. All revenue-generating programming and rental activities at the District abruptly halted on March 14, 2020. Staff at the district quickly adapted to virtual formats for service delivery. On August 1, 2020, the District resumed limited inperson programming and rentals with additional safety protocols and capacity limits in place. Intermittent closures and disruptions continued throughout the year in response to regional mitigation measures and local cases. While the state moved to Phase 5 of the Restore Illinois plan in June of 2021, by fall a state-wide indoor mask mandate was instituted in response to the surge in cases from the Delta and Omicron variants of the disease that is spreading throughout the country. The situation with the pandemic remains fluid and the economic effects ongoing, and the District expects the effects on consumer behavior to last for years to come.

The Urbana Park District is located in east-central Illinois, which is one of the most stable economic environments in the state. According to 2020 Census data, Champaign County is one of the few counties in Illinois that grew in population over the last decade while the majority of the state experienced declines. A major reason for this stability is the University of Illinois at Urbana-Champaign. Also, Carle Foundation Hospital and Carle Clinic along with OSF HealthCare Heart of Mary Medical Center and Christie Clinic are two expanding medical provider groups. There is an additional medical center for teaching and research, the Carle Illinois College of Medicine.

The District is largely a residential community. The District's tax base continues to add new construction of multi-family apartments, town houses and single family housing aimed at an increasing university population as well as others moving to Urbana employed in medicine, retail shopping and consumer and business services. Although the District experienced growth in tax base, the district sees the taxable value for its existing property decrease. In the levy year reported on in this report, the net result was an increase of 1.4% to the District's Equalized Assessed Value (EAV). Property tax revenue in this report is for levy year 2020 collected by the District in 2021 and reported on in our fiscal year ending in 2022.

In January 2016, the Illinois 4th District Appellate Court ruled the state's 2012 charity care law is unconstitutional, which would have reinstated previously exempt properties of Carle Foundation Hospital and Presence Healthcare to the tax rolls. Upon appeal, in March 2017, the Illinois Supreme Court decided to vacate the 4th District Appellate Court decision in the case on non-constitutional grounds, and sent the case back to the Champaign County circuit court for further proceedings. The case is currently under appeal in the Appellate Court after a February 2020 decision by the Champaign County circuit court in favor of Carle. The ultimate outcome of this case may have impacts on Urbana's future EAV.

The District is a capped property tax District regulated by the 1996 Illinois legislation creating the Property Tax Extension Limitation Law (PTELL or Tax Caps). The law limits the increase in the District's annual property tax extension of a group of capped funds to the lesser of 5% or the percent increase in the Consumer Price Index. For the 2020 tax levy collected in 2021 and reported in fiscal year ended April 30, 2022, the increase in the Consumer Price Index was 2.3%.

Major Initiatives

The upcoming construction of the Health & Wellness Center reinforces the District's commitment to providing parks, programs, facilities, and events that promote all dimensions of wellness and includes a new indoor and self-guided opportunities for all ages and abilities. The District is moving forward with a plan for construction of a health and wellness center, with a goal of improving and expanding upon indoor health and wellness space for the community. The vision of this space incorporates a variety of opportunities in fitness, wellness, and athletics to promote and improve the overall well-being of community members, while providing indoor, on your own time opportunities. Working in partnership, the Urbana Parks Foundation and the District have successfully raised over \$1.9 million in private donations from individuals and local businesses towards the project. In addition, the District was awarded a \$2.5 million Park and Recreational Facilities Construction (PARC) grant through the Illinois Department of Natural Resources and a \$3 million Department of Commerce & Economic Opportunity (DCEO) grant. The District continues to pursue additional funding opportunities such as applying for City and County American Rescue Plan Act (ARPA) funds. Groundbreaking on the facility is expected to take place in spring of 2023.

Crystal Lake Park remains a priority for the district and community. Staff continue to provide significant improvements at the park and within the 9-acre lake. Phase I of the rehabilitation project, sediment removal from the basin, was completed in 2017. Phase II work began in May 2020 and included restoration of the shoreline with a native plant buffer that reduced erosion and improved water quality. Additionally, stone outcroppings, a kayak beach launch, and other recreational amenities and accessibility improvements now surround the lake. In the last fiscal year, the park has seen a major road reconstruction project that helps solidify an integral piece of infrastructure for many years to come.

Another improvement in Crystal Lake Park began in the last year with the award of the Illinois Department of Transportation's, Illinois Transportation Enhancement Program Grant (ITEP). This will strengthen the trail network within the park by connecting a 10-foot multi-use path on the southern border of the park towards the outdoor pool and nature center complex to the north end. This project is currently in design and will bid for construction in 2023.

Fiscal year 2022 also saw a major initiative within Blair Park. Every area of this centrally-located park saw some piece of improvement as part of an Open Space Land Acquisition and Development (OSLAD) grant from the Illinois Department of Natural Resources. The revitalization project brought new life to an already well-loved outdoor space. With a focus on recreation needs of preteens and teens, and the adjacency to the Urbana High School and Jr. High campuses, a new basketball court, electronic soccer wall, and challenge course were included within the project. The new perimeter walking path, accessible improvements to horseshoe pits and a t-ball field, as well as a new playground also included active recreational opportunities for all age groups in the community.

District Departments

The District has three departments: Administration, Recreation, and Planning and Operations. The Administration Department has seven full-time employees and is responsible for strategic planning, administration, accounting services, and fund development.

The Recreation Department has twenty-two full-time employees and 240 seasonal and program based intermittent employees divided into five areas: Community, Environmental, Athletics, Outreach & Wellness and Aquatics Programs. The Recreation Department also oversees the marketing and public information functions of the District.

The Planning and Operations Department has twenty-two full time employees and twenty seasonal employees. The department has six divisions: facilities maintenance, grounds maintenance, aquatics maintenance, light construction, natural areas management, and capital project management and planning.

Financial Management and Budgetary Control

The accounting policies of the District conform to standards generally accepted in the United States of America as promulgated by the Government Accounting Standards Board (GASB). The financial transactions of the District are recorded in individual funds which reflect the nature and purpose of the resources acquired and expended.

The modified accrual basis of accounting is followed by all governmental funds and full accrual is used for business-type activities. Subject to the unique elements of modified accrual versus full accrual accounting methods, revenues and expenditures are recognized when incurred or at a time when they can be accurately measured and verified.

The management of the District is responsible for establishing and maintaining an internal control structure. The objectives of an internal control structure are to provide management with reasonable, but not absolute, assurances that assets are safeguarded against loss, theft or misuse and transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of basic financial statements in accordance with standards generally accepted in the United States of America.

The concept of reasonable assurance recognizes that the cost of internal control should not exceed the benefits likely to be derived and that estimates and judgments by management are required to assess the expected benefits and related costs of the controls. It is management's belief that the District's system of internal controls adequately safeguards assets and provides reasonable assurance of the proper recording of transactions. Budgetary control is maintained through the adoption of the annual Budget and Appropriation Ordinance and by the approval of the working budget by the Board of Commissioners. In April, a proposed working budget is submitted by staff to the board for its review. This budget includes proposed revenues and expenditures for the fiscal year beginning May 1. In July, a public hearing is conducted to allow citizens of the District to make comments on the proposed budget. The budget is then legally enacted through passage of the Budget and Appropriation Ordinance.

The Business Services Department maintains line-item control over expenditures. The staff is authorized to transfer budget amounts between line items within a fund. However, any transfers between funds must be approved by the Board of Commissioners. The Board of Commissioners and Treasurer review the monthly financial statements to ensure sound financial management.

The budget is driven by the District's strategic initiatives and actions, with a focus on meeting the community's needs for core recreation facilities and programs, while maintaining fiscal strength and responsibility in the face of uncertainty. At the state level, the consideration of a property tax freeze, the implementation of increases to minimum wage, as well as limited or suspended grant opportunities, create challenges for the District. Operating costs of health insurance benefits, utility, and program supplies also continue to rise, highlighting the importance of the prudent stewardship of our resources.

Debt Administration and Capital Obligations

The District uses general obligation (limited series) bonds mainly to acquire, to develop and to renovate parks, facilities, and equipment. The District issues bonds annually.

The use of general obligation bond debt by the District is governed by two Illinois State Statutes:

(1) Outstanding general obligation (limited series) bonds may not exceed .575% of 1% (0.575%) of the assessed valuation of the District, and (2) the total indebtedness of the District may not exceed 2.875% of the assessed valuation of the District.

However, the tax cap legislation passed in 1996 and revised in 2009 additionally limits to \$880,777 the dollar amount of the property tax extension allowed for the annual repayment of general obligation bonds and interest. The legislation in 2009 allowed an annual increase equivalent to the percent change in the Consumer Price Index (CPI). Restricted by tax caps, the amount of new general obligation bonds the District issued was \$877,895, \$863,535, and \$835,285 in December 2021, 2020, and 2019 respectively. The bonds are one year bonds.

Additionally, the District has debt obligations remaining on an alternate revenue source bond issue. A twenty year \$14,950,000 bond issue occurred in December 2019 and has eighteen payments totaling \$13,955,000 remaining unpaid at April 30, 2022. The issuance included a bond refunding on the District's series 2010 and 2011 alternate bonds.

Independent Audit

Illinois state law requires that an annual independent audit of the financial statements and accounts of all of the District's funds be performed by a certified public accountant selected by the Board of Commissioners. This requirement has been met and the independent auditor's report has been included in this report.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Urbana Park District for its *Annual Comprehensive Financial Report* for the fiscal year ended April 30, 2021. This was the twenty-first consecutive year that the government has achieved this award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current *Annual Comprehensive Financial Report* continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

Appreciation is expressed to the accounting and administrative office staff of the District and to Mr. Anthony Cervini and Mr. Tom Siwicki of the District's auditing firm. Credit should also be given to the Board of Commissioners for its continued interest in advancing the District and in its support of staff.

Respectfully submitted,

Timothy A. Bartlett

INDEPENDENT AUDITOR'S REPORT

Members of the Board of Commissioners Urbana Park District Urbana, Illinois

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Urbana Park District, Urbana, Illinois (the District), as of and for the year ended April 30, 2022, and the related notes to financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Urbana Park District, Urbana, Illinois as of April 30, 2022, and the respective changes in financial position and, where applicable, cashflows thereof for the year ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under these standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of
 expressing an opinion on the effectiveness of the District's internal control. Accordingly,
 no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund financial statements and schedules and supplementary data are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and schedules and supplementary data are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements.

The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules and supplementary data are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory, statistical, and other supplementary information sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Naperville, Illinois October 28, 2022

GENERAL PURPOSE EXTERNAL FINANCIAL STATEMENTS

Management Discussion and Analysis April 30, 2022

Introduction

As management of the Urbana Park District (UPD), we offer readers of these financial statements this narrative overview and analysis of the financial activities of the Urbana Park District for the fiscal year ended April 30, 2022. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, financial statements, and notes to the basic financial statements contained within this report.

Financial Highlights

- Presented on a government-wide basis in the Statement of Net Position (pages 5-6), the Urbana Park District's *total assets* of \$53,480,430 plus *deferred outflows* of \$532,569 exceeded *total liabilities* of \$19,922,457 plus *deferred inflows* of \$9,777,791 at April 30, 2022 by \$24,312,751 (*total net position*). *Total net position* is the remainder when the amount of *total liabilities* and *deferred inflows* is subtracted from the amount of *total assets* and *deferred outflows*.
- Of the District's *total net position* of \$24,312,751, \$4,307,685 (*unrestricted*) may be used to meet UPD's ongoing obligations to citizens and creditors. The remainder is either *invested in capital assets*, \$16,045,562; or, restricted in its use, \$3,959,504 (*restricted*) for making fund specific payments from property tax collections, completing planned capital asset projects and, thirdly, to support a public swimming facility in Urbana.
- The District's *net position end of year* increased during the current year by \$2,923,670 (page 6).
- UPD's total bonded debt decreased by \$490,640 to \$14,832,895 at April 30, 2022.
- UPD's governmental funds (pages 9-10) reported combined ending fund balances of \$13,854,229, an increase of \$134,709 in comparison to the prior year ending fund balances of \$13,719,520.
- In the General Fund, the ending fund balance was \$2,877,987, or 116%, of total General Fund expenditures, a decrease of \$265,628, or 8%, from the prior year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Urbana Park District's basic financial statements. The basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information intended to furnish additional detail to support the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Urbana Park District's finances, in a manner similar to a private-sector business.

The first of these government-wide statements is the Statement of Net Position. This is the district-wide statement of position presenting information that includes all of the District's assets, deferred outflows, liabilities, and deferred inflows. The difference between the assets and deferred outflows and the liabilities and deferred inflows

Management Discussion and Analysis April 30, 2022

is the District's net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating. Evaluation of the overall health of the District would extend to other nonfinancial factors, such as changes in the District's property tax base and the condition of the District's infrastructure, in addition to the financial information provided in this report.

The second government-wide statement is the Statement of Activities. This statement reports how the District's net position changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid. An important purpose of the design of the statement is to show the financial reliance of the District's distinct activities or functions on revenues provided by the District's taxpayers.

Government-wide financial statements distinguish government activities of the District that are principally supported by property taxes, intergovernmental revenues and grants from business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. The governmental activities of the District include general government, recreation and cultural opportunities, land and park development. The District has one business-type activity—the Urbana Indoor Aquatic Center.

The government-wide financial statements can be found on pages 5-8 of this report.

Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The District uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the District's most significant funds rather than the District as a whole. Major funds are reported separately while all others are combined into a single, aggregate presentation. Individual fund data for non-major funds is provided in the form of combining statements in a later section of this report.

The District's governmental funds are reported in the fund financial statements and encompass essentially the same functions reported as governmental activities in the government-wide statements. However, the focus is very different, with fund statements providing a distinctive view of each of the District's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to assist in understanding the differences between these two perspectives.

Budgetary comparison statements are included with the basic financial statements for the general fund and major special revenue funds. Budgetary comparison schedules for other special revenue funds can be found in a later section of this report. These statements and schedules demonstrate compliance with the District's adopted annual appropriated budget.

The basic governmental fund financial statements are presented starting on page 9 of this report.

Management Discussion and Analysis April 30, 2022

Proprietary Funds

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The Urbana Park District maintains one enterprise-type proprietary fund.

Enterprise funds are used to account for operations that are financed and operated in a manner similar to a private business enterprise and presented as business-type activities in the government-wide financial statements. The Urbana Park District utilizes one enterprise fund to account for the operation of the Urbana Indoor Aquatic Center. The basic proprietary fund financial statements can be found on pages 14 - 16 of this report.

Fiduciary Funds

The Urbana Park District has no fiduciary fund types.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 17 – 46 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. The required supplementary schedules include 1) schedules of revenues, expenditures, and changes in fund balances – budget and actual for the General Fund and each major special revenue fund; 2) the schedule of employer contributions for the district's pension plan; 3) the schedule of changes in net pension liability and related ratios and the schedule of employer contributions for the District's pension plan; and 4) the schedule of changes in total other post-employment benefits (OPEB) liability and related ratios for the District's OPEB plan. Required Supplementary Information can be found beginning on page 47 of this report.

Following the required supplementary information, there is also additional supplementary information and statistical information the District has provided to further explain and support the financial statements and provide historical and trend information for the District and the surrounding community. Combining and individual statements and schedules for major and non-major funds are presented in a subsequent section of this report beginning on page 55.

Government-wide Financial Analysis

At April 30, 2022 UPD's *total assets* are \$53,480,430; 48% of this amount is invested in *capital assets*, \$25,713,141, after subtracting accumulated depreciation (e.g. land, art, land improvements, buildings and improvements, equipment, and infrastructure). Although the District's *net investment in capital assets*, \$16,045,562 is reported *net of related debt* it should be noted that the resources needed to repay this debt, currently \$14,832,895 in bonded debt due over a period of eighteen years, must be provided from other sources since capital assets themselves cannot be used to liquidate these liabilities.

Management Discussion and Analysis April 30, 2022

Tables 1 and 2 on pages MD&A 7 and MD&A 8 in this section present, for years ending in 2022 and 2021, a comparison of the components of government-wide net position (pages 5-6) and results of activities (pages 7-8) that increased *total net position*.

Table 1, page MD&A 7

Table 1 on a two-year comparative basis shows the amount of assets, deferred outflows, liabilities, deferred inflows, and net position for the District on the last day of its fiscal years 2022 and 2021. The District's *total net position* reported at April 30, 2022 is \$24,312,751 which is an increase of \$2,923,670 over *total net position*, \$21,389,081 reported at April 30, 2021.

Overall increases to *total net position* reflects the ability of the District to grow for long-term stability while, at the same time, providing the day to day leisure and recreational activities its citizens enjoy. *Total net position* is the remainder when the amount of *total liabilities* and *deferred inflows* is subtracted from the amount of *total assets* and *deferred outflows*.

The District's total assets at April 30, 2022 are \$53,480,430 an increase of \$11,808,541 made during fiscal year 2022. There are two components of total assets. The first is current and other assets of \$27,767,289 consisting primarily of cash balances, prepaid expenses and amounts receivable at April 30, 2022. There is an increase of \$11,341,243 over the amount of current and other assets at April 30, 2021. Capital assets, the second component of total assets, increased at April 30, 2022 to \$25,713,141 an increase of \$467,298 reflecting capital additions exceeding depreciation expense on capital assets.

Deferred outflows represent a consumption of net position that applies to future periods. First appearing in fiscal year 2016 with the District's implementation of GASB 68, the District's deferred outflows reported at April 30, 2022 of \$532,569 is a decrease of \$4,791 over deferred outflows of \$537,360 reported at April 30, 2021. Total deferred outflows at April 30, 2022 of \$532,569 includes pension deferred outflows of \$477,928 and OPEB deferred outflows of \$54,641. The pension related deferred outflows consist of unrecognized items not yet charged to pension expense and contributions made by the district subsequent to the net pension liability measurement date. The OPEB related deferred outflows consist of unrecognized items not yet charged to OPEB expense. These items will be included in the pension and OPEB liability and expense calculations in subsequent fiscal years.

The District's *total liabilities* at April 30, 2022 are \$19,922,457 which is an increase of \$357,039 made during fiscal year 2022. *Total liabilities* are composed of two parts, *long-term liabilities* and *other liabilities*. Years of an increase in *long-term liabilities* reflect financing decisions made to acquire current and capital resources and in years of decreasing *long-term liabilities* payments have exceeded increases in long-term debt.

The District's *long-term liabilities* decreased \$1,545,873 at April 30, 2022 to \$15,423,269 over the amount reported at April 30, 2021 of \$16,969,142. The schedule of the components of *long-term liabilities* can be found on page MD&A 13 in Table 4. Along with bonded debt of \$14,832,895 at April 30, 2022, also included in *long-term liabilities* shown in Table 4 is \$993,169 for premium on alternate revenue bonds, \$258,353 for accrued compensated absences, and \$216,747 for net liability of the District's OPEB. Accrued compensated absences is the liability the District has at April 30, 2022 for personal leave benefits that are earned by staff but not yet used.

Other liabilities increased by \$1,902,912 to \$4,499,188 at April 30, 2022. Other liabilities are the total of trade accounts payable, wages payable, and certain unearned revenue items like unearned program fees, payments received from grants and from donors designated for a specific purpose but not yet spent, and the accumulated saving over a number of years of certain property tax payments received by the District but paid under protest by

Management Discussion and Analysis April 30, 2022

the taxpayer. A large portion of the final TIF #3 surplus distribution was paid under protest by a taxpayer, which was recorded as unearned revenue until the issue is resolved. Unearned revenue items for the District as a whole increased \$1,043,618 in fiscal year 2022 due to payments received from donors designated for construction of a future Health and Wellness Center.

Deferred inflows represent an acquisition of net position that applies to future periods. The District's deferred inflows reported at April 30, 2022 of \$9,777,791 is an increase of \$8,523,041 over deferred inflows of \$1,254,750 reported at April 30, 2021. Total *deferred inflows* at April 30, 2022 of \$9,777,791 includes pension deferred inflows of \$1,786,046 and OPEB deferred inflows of \$75,290. These pension and OPEB deferred inflows consist of the unamortized portion of the impact on liability resulting from changes in actuarial assumptions, differences between expected and actual experience, and differences between projected and actual earnings on pension plan investments.

The District's one *business-type enterprise activity*, an indoor pool, has no capitalized assets acquired by the District. Urbana Park District, through a partnership with the Urbana School District, operates a year round indoor pool located in a School District facility. The indoor pool's operation, at April 30, 2022, contributed to overall government-wide combined results *current and other assets* totaling \$290,736 and *other liabilities* totaling \$291,725 for *total net position* of (\$989). An intergovernmental agreement between the Park District and the School District acts to maintain operations at the indoor pool on a break-even basis. The current intergovernmental agreement was for a period of one year ending on April 30, 2022. The existing agreement was extended by approval of both entities for an additional year, expiring April 30, 2023.

Table 2, page MD&A 8

The District's *total* (or *ending*) *net position* at April 30, 2022 is \$24,312,751, an increase of \$2,923,670. To compare, the increase to *total net position* was \$2,504,688 in 2021. Both years recorded an increase in net position reflecting the District's budgetary controls and also specific strategic actions initiated by the District beginning in 2008 to both increase revenue and to improve or replace existing assets.

The District's *total revenues* were \$11,320,126 in fiscal year 2022, an overall increase of \$1,678,777 or 17%, from fiscal year 2021. Of the seven categories that comprise *total revenues*, five increased and two decreased.

The five revenue areas that increased in the order of their percentage change were *charges for services*, 321%, *operating grants/contributions* 105%, *unrestricted shared intergovernmental*, 40% and *property taxes*, 3.5%. *Miscellaneous* is a new category, created to account for insurance claims and refunds that were previously recorded in operating grants/donations. For fiscal year 2022, the insurance refund received for annual worker's compensation audit was \$27,129 and claims in regards to roof replacement at Phillips Recreation Center totaled \$46,934.

Revenues received from *charges for services* in fiscal year 2022 totaling \$952,936 for both governmental activities and business-type activities increased \$726,801, or 321%, from the total reported in 2021, \$226,135. *Charges for services* increased 340% in fiscal year 2022 by \$662,292 for governmental activities. *Charges for services* increased 206% in fiscal year 2022 by \$64,509 for business-type activities. The primary factor contributing to these increases was due to the COVID-19 pandemic state mandates/stay at home orders slowing receding and moving towards a semi-return to normalcy. Limited programming and facility rentals resumed intermittently with capacity restrictions, impacting the ability of the District to fully generate earned revenues.

Management Discussion and Analysis April 30, 2022

Amounts received from *operating grants and contributions* in fiscal year 2022 totaling \$1,476,236 for both governmental activities and business-type activities increased \$756,450, or 105% more than the total reported in 2021, \$719,786. *Operating grants and contributions* for governmental activities increased \$605,769 to \$910,262 in 2022 from \$304,493 in 2021. In fiscal year 2022 the district received a gift of \$691,700 for the establishment of the Waynona & Richard Brown Public Art Fund for the ongoing purchase and maintenance of sculpture in Meadowbrook Park, which is the primary factor for the increase in *operating grants and contributions* in governmental activities. *Operating grants and contributions* for business-type activities increased \$150,681 from \$415,293 in 2021 to \$565,974 in 2022. The increase of \$150,681 for business-type activities is the increase in the *operating contribution* required this year from the two governmental units, Urbana Park District and Urbana School District, in order to cover operating costs for facilities that are owned by the Urbana School District and utilized by the Urbana Park District.

Revenues from *unrestricted shared intergovernmental* increased by \$143,263 or 40%, to \$499,213 in fiscal year 2022 from the amount received in the prior year \$355,950. *Unrestricted shared intergovernmental* revenues are composed of two sources. The first source is revenue the District receives from the City of Urbana related to the intergovernmental agreement for Tax Increment Financing (TIF) District #4, which increased by \$22,339 or 14.5%, from \$153,980 in fiscal year 2021 to \$176,319 in fiscal year 2022. The amount received is based on the Park District's portion of the taxes received by the TIF District that the Park District spent on eligible projects within the TIF District. The second source is state Corporate Personal Property Replacement Tax, which increased by \$181,422 to \$378,052 in fiscal year 2022. This is a 92% increase over the amount of state replacement tax revenue in the prior year, \$196,630. All taxing districts in the state received an unprecedented increase in state replacement tax revenues due to state wide economic factors in fiscal year 2022.

Revenues from *property taxes* increased by \$255,263, or 3.5%, to \$7,644,524 in fiscal year 2022 from the property tax revenue reported in the prior year \$7,389,261. This increase is due to change in the consumer price index of 2.3% applied to the district's prior-year tax extension, along with any increase in equalized assess value (EAV) in the District upon which the taxes are assessed according to the formula in the Property Tax Extension Limitation Law (PTELL) by which the District is bound.

Two revenue areas decreased in fiscal year 2022. Those revenue areas, in the order of percentage decrease, were *interest and investment*, 111%, *capital grants and contributions*, 21%.

Revenue from *interest and investment* decreased by \$97,661 to (\$10,008) in fiscal year 2022 from \$87,653 received in fiscal year 2021. This decrease can primarily be attributed to the adverse impacts to financial markets which negatively affected the market value of the district's investments. The economy continues to recover from the COVID-19 pandemic and from global economic impacts such as the war in Ukraine.

Revenues from *capital grants and contributions* decreased by \$179,402, or 21%, to \$683,162 in fiscal year 2022 from the amount received in the prior year \$862,564. This decrease year to year was mainly from one-time donations received in fiscal year 2021 for the Crystal Lake Restoration Project and a sculpture purchase, and contributions from the Urbana-Champaign Sanitary District for the phased restoration of the Perkins Road wetland that were not repeated in fiscal year 2022.

The second section in the Statement of Activities, still referring to Table 2 on page MD&A 8, is the section that presents *expenses* on a government-wide basis. *Total expenses* for 2022 increased by \$1,259,795 or 18%, to \$8,396,456 in 2022 from \$7,136,661 in 2021.

Management Discussion and Analysis April 30, 2022

There are two items in the *expense section* on the Statement of Activities. The first, *culture and recreation*, when combining the increase for governmental activities of \$1,035,275 to the increase for business-type activities of \$215,775 as a sum, increased \$1,251,050, or 19%. These increases highlight the district's efforts to control costs during the COVID-19 pandemic. The second item in the *expense section* on Statement of Activities, *interest on debt*, increased \$8,745 or 2%, in fiscal year 2022.

The following table reflects the condensed Statement of Net Position.

Table 1 Statement of Net Position

	Governmental Activities		Business-Type Activities		Total	
	2022	2021	2022	2021	2022	2021
Current and Other Assets	\$ 27,476,553	\$ 16,131,756	\$ 290,736	\$ 294,290	\$ 27,767,289	\$ 16,426,046

Management Discussion and Analysis April 30, 2022

Financial Analysis of the Governmental Funds

Fund financial statements for the District's governmental funds are presented on pages 9-10 and 12. As discussed, governmental funds are reported with a current financial resources focus and the modified accrual basis of accounting. This information is useful in assessing resources available at the end of the year in comparison with upcoming financial requirements.

The Balance Sheet for governmental funds, pages 9-10, reports at the fund level assets, liabilities, deferred inflows of resources and fund balance. Deferred inflows of resources of \$8,436,801 is \$520,346 in grant proceeds yet to be utilized, and the remainder of property taxes for levy year 2021 and received in 2022; \$8,029,124, minus a reserve for nonpayment of \$112,669. Fund balance is the remainder when the sum of fund liabilities plus deferred inflows of resources is subtracted from fund assets. *Total (ending) fund balance* for all governmental funds at April 30, 2022 is \$13,854,229 which is separated into amounts meeting the definition for inclusion in one of five basic components. The components with their amounts at April 30, 2022 are *non-spendable* \$277,074, *restricted* \$10,117,989, *committed* \$484,270, *assigned* \$131,689, and *unassigned* \$2,843,207.

Total assets at April 30, 2022 for all government funds were \$26,303,774. Total liabilities were \$4,012,744. Deferred inflows of resources were \$8,436,801. Total fund balances discussed above were \$13,854,229. The mathematical balance on the balance sheet is total assets will equal the sum of total liabilities plus total deferred inflows of resources plus total fund balances. In the District's case and at April 30, 2022 the equation is \$26,303,774 equals (\$4,012,744 plus \$8,436,801 plus \$13,854,229).

The Statement of Revenues, Expenditures, and Changes in Fund Balances is presented on page 12 and shows an increase of \$134,709 to the District's *ending fund balances*. *Ending fund balances* for all government funds is \$13,854,229 at April 30, 2022 and it was \$13,719,520 at April 30, 2021. Of the combined increases and decreases that net to an increase of \$134,709 in total ending fund balance, a \$599,686 decrease occurred in the capital projects fund, where \$2,008,326 was the expenditure on *capital outlay*, \$11,500 was the expenditure for *bond issuance cost*, and \$1,153 was for *interest on principal*. *Total revenues* were \$362,593, and sum of *other financing* activities netted to a *source* (an increase) to capital projects funds of \$1,058,700. The *fund balance*, *end of year* is \$6,634,534, which is *restricted* for the completion of capital projects.

The remaining government funds, excluding the capital projects fund, together had a combined increase of \$734,395 to ending fund balances. The general fund's fund balance decreased \$265,628.

Revenues for all the governmental funds as a total increased in fiscal year 2022 by \$1,530,096. *Total revenues* for fiscal year 2022 are \$10,458,094, page 12, compared to \$8,927,998 for governmental funds in fiscal year 2021. \$1,530,096 is a 17% increase year to year. Components of revenues changed in this way. Increases were to *charges for services, program rentals and related items* \$636,111, *contributions and sponsorships* \$467,069, *property taxes* \$255,063, *intergovernmental revenues* \$232,418, *merchandise and concession sales* \$26,182, and *miscellaneous* \$74,063. Decreases were to *grants* \$63,149 and *investment earnings* \$97,661. The decreases in *and to* were primarily due to program and rental cancellations and facility closures as impacted by the COVID-19 pandemic shutdown. Three items of revenue are variable year to year and cannot be predicted either to amounts or timing. Two are revenue from contributions and sponsorships and from grants. Contributions and sponsorships decreased and grants increased in the current year. The third is revenue from other units of government (intergovernmental revenue) which increased in the current year.

Management Discussion and Analysis April 30, 2022

Current expenditures for all governmental funds increased in fiscal year 2022 by \$1,131,493 or 22%. Current expenditures are \$6,377,295 and \$5,245,802 respectively for fiscal years 2022 and 2021. A comparison of expenditures for the current year presented on page 12 can be made to results reported last year for fiscal year 2021. Personnel cost for *salaries and wages* and *fringe benefits* taken together increased \$1,163,732, or 36%. Current expenditures for *commodities* decreased \$62,668, *contractual services* decreased \$55,812, and *other expenditures* increased \$86,241.

Capital outlay in all funds in 2022 was \$2,008,328, of which \$2,008,326 was in the capital projects fund and \$2 was in the Land Acquisition fund. Capital outlay in 2021 totaled \$2,964,768.

Debt service *principal* paid in 2022 was \$1,368,535. Principal paid in 2021 was \$1,325,285. *Interest* paid in 2022 was \$550,647. Interest paid in 2021 was \$570,160. *Bond issuance costs*, fees paid to issue debt, in 2022 was \$11,500. Bond issuance cost in 2021 was \$11,100.

Issuance of debt in 2022 was \$877,895, but was considered short-term and is shown only on the balance sheet. Issuance of debt in 2021 was \$863,535, and was considered long-term and was shown on the statement of revenues, expenditures, and changes in fund balances. This issuance of debt was in the other financing section and is source of fund revenues for the capital projects fund.

Results reported here for government funds do not include revenues and expenses in the District's one proprietary fund, an indoor pool. However, results using government-wide reporting and the discussion of the same using Table 1 and Table 2 in this section do include the performance of the indoor pool.

Major Governmental Funds

The general, recreation, and capital projects funds are the three funds that are the major operating funds of the District.

The *general fund* is the chief operating fund of the Urbana Park District. The ending fund balance of the *general fund* as of April 30, 2022 is \$2,877,987, an 8% decrease of \$265,628 over the prior year ending fund balance of \$3,143,615. Of the \$2,877,987 in ending fund balance, \$2,843,207 is unassigned and available for future operations supporting parks, recreation and cultural services. \$34,780 is non-spendable, which is prepaid items purchased for use in the next fiscal year.

The recreation fund experienced an increase of \$584,365 or 24%, in total revenues for fiscal year 2022 over fiscal year 2021. The revenue items merchandise and concession sales and charges for services, program rentals, and related items experienced the largest increases of 660% and 353% respectively. This was largely due to the reopening of facilities and programs as per state mandates and guidelines, as the district moves towards a return to pre-Covid functionality. The ending fund balance in the recreation fund as of April 30, 2022 was \$465,336, a decrease of \$73,977, over the prior year ending fund balance of \$539,313. \$448,371 in ending fund balance is committed for use in support of recreational events and programming. \$16,965 is non-spendable, which is prepaid items purchased for use in the next fiscal year.

The *capital projects fund* ending fund balance as of April 30, 2022 is \$6,634,534, an 8% decrease of \$599,686 over the prior year ending fund balance at April 30, 2021 of \$7,234,220. In fiscal year 2022, a major portion of the planned expenditures for the Crystal Lake Rehabilitation Project were completed, as well as Blair Park also receiving major overall park improvements. Because plans made each year for increasing the District's capital assets take three years to complete, this fund may routinely experience significant annual swings that either increase or decrease ending fund balance as projects financed by the sale of bonds are both begun and completed over multiple years.

Management Discussion and Analysis April 30, 2022

General Fund Budgetary Highlights:

Refer to page 47, the Budget Versus Actual of the general fund comparing actual performance to budgeted performance for revenue, expenditures and other financing sources (uses). The final budget of the general fund anticipated a \$1,118,450 decrease in fund balance end of year. Instead, the actual change to fund balance end of the year was a decrease of \$265,628.

The \$265,628 decrease in the general fund exceeded budgeted performance by \$852,822. Actual total revenues were \$88,598 more than budgeted revenues and actual total expenditures were \$429,795 less than amounts budgeted resulting in a \$518,393 increase to net excess of revenues over expenditures when compared to budgeted results.

The general fund ended the fiscal year at April 30, 2022 with a fund balance of \$2,877,987. This is a \$265,628 decrease to the fund balance at the end of the prior year of \$3,143,615. The \$2,843,207 unassigned fund balance in the general fund represents 116% of total general fund expenditures plus routine transfers out to other funds, well ahead of the 17% minimum reserve goal at year-end.

Capital Asset Administration:

The Urbana Park District's investment in capital assets includes land and improvements, appreciating assets, buildings and improvements, equipment, and infrastructure. The investment in capital assets as of April 30, 2022 was \$25,713,141 (net of accumulated depreciation), an increase of \$467,298 over last year.

The following Comparative Statement of Capital Assets, net of depreciation shows the change in assets for the governmental activities.

Table 3
Comparative Statement of Capital Assets

		Governmental Activities		
	2022	2021		
Land	3,664,091	3,664,091		
Appreciating Assets	383,763	383,763		
Land Improvements	6,475,412	5,925,799		
Building & Improvements	14,241,366	14,649,983		
Equipment & Vehicles	740,788	557,094		
Infrastructure	207,721	65,113		
	25,713,141	25,245,843		

There are no business-type capital assets.

New capital assets totaling \$1,869,441 were added during the year.

Management Discussion and Analysis April 30, 2022

The largest category of additions was to land improvements totaling \$1,145,169, which includes: year seven of Crystal Lake rehabilitation and access improvements, \$258,788; year three of the installation of rock riffle structures and habitat improvements to the Saline creek in Crystal Lake Park, \$9,013; year two of improvements to Blair Park which includes a new playground, tennis court improvements, and loop pathway system, \$848,616; and continued improvements of the wetlands at Perkins Road Park, \$28,752. The District uses gifts from donors and also pursues opportunities to obtain matching grants using bond funds.

Buildings and building improvements totaled \$192,515, for year three design and engineering for a new health and wellness center, \$113,535; and for tile repairs at Crystal Lake Park Family Aquatic Center, \$6,980.

There were additions to equipment and vehicles totaling \$379,577, year three of CO₂ water treatment system for the Crystal Lake Family Aquatic Center, \$975; for additional shade structures for Ambucs Park, \$28,820; and for several district vehicles and implements because purchases were postponed during Covid, \$349,782

Infrastructure improvements, which includes roads and bridges, totaled \$152,180 for year three of a multi-year plan to convert the road in Crystal Lake Park into a one-way road system to facilitate shared pedestrian and vehicular use through the park.

There were no additions to the non-depreciating asset of art in fiscal year 2022.

There were no additions to park land in fiscal year 2022.

Depreciation expense this year totaled \$1,402,143. Depreciation expense represents a calculation made every year, based on each asset's estimated life, for one year's cost of wear and tear to equipment and facilities (*capital assets*). Each year, the current depreciation expense increases the accumulated amount of deferred repairs or replacements that will become necessary capital asset expenditures in the not too distant future. Accumulated depreciation at April 30, 2022 is \$15,723,930.

The original cost to acquire or construct the capital assets of the District at April 30, 2022 is \$41,437,071. The purchase cost of assets removed from the list of capital assets this year because they were replaced totaled \$260,721. The accumulated depreciation on the assets removed from the listing of capital assets this year was \$260,721. Additional information on capital assets can be found in Note 4 in the Notes to Financial Statements.

Debt Administration:

In December 2019, the District issued \$14,950,000 in alternate revenue source bonds. The bond was issued at a premium of \$1,124,342. A portion of the proceeds, in the amount of approximately \$10,007,400, was used for the current refunding on two existing bonds. The bond proceeds included \$5,817,500 additional funds for future projects. The purpose of the issuance, in addition to realizing savings in a favorable interest rate environment on the refunding, was to pay for the costs of renovations and improvements to Crystal Lake Park and to build and equip a health and wellness facility or construction of various health and wellness projects throughout the District. At April 30, 2022 eighteen principal payments remain unpaid from a \$14,950,000 bond issue in calendar year 2019. Alternate revenue source bonds are repaid with certain specifically identified pledged revenue sources. For the District the specifically identified new revenue source were a 15 cents rate increase to property taxes approved by the voters in the April 2009 general election and an 11 cent rate increase to property taxes approved by the voters in the April 2011 general election. In addition to new property taxes received from the two rate increases all monies constituting other general tax receipts and other revenues from District operations as well as proceeds received by the District from the issuance of general obligation bonds or notes to the fullest extent permitted by law are,

Management Discussion and Analysis April 30, 2022

collectively, considered to be the pledged revenues. As long as the District is making scheduled principal payments (bond payments) and interest payments from its pledged revenues generated by ongoing general operations, outstanding balances of alternate revenue source bonds do not count against any statutory debt limitations applicable to the District.

Contrary to alternate revenue source bonds, general obligation bonds are bonds for which the monies to repay the principal (the bond) and interest are additional tax monies levied each year in the bond principal and interest fund. Property taxes collected in the bond principal and interest fund cannot be used for general operations of the District and the taxes are not levied once the general obligation bonds are retired.

The District uses property taxes levied in the bond principal and interest fund to make payments on its general obligation (limited series) bonds. The District uses general obligation (limited series) bonds mainly to acquire, to develop, and to renovate parks, facilities, and equipment and the District issues these bonds annually. Limited series bonds do not require voter approval prior to issuance. For tax levy year 2020 reported in fiscal year 2022, because of tax cap legislation, UPD's property tax levy for the bond principal and interest fund used to retire general obligation (limited series) bonds was limited to \$868,615 to pay both bond principal and interest in a given year. State law allows a park District to issue general obligation (limited series) bonds based upon the total assessed valuation of the taxable property in the District not exceeding 0.575 of 1% of the total assessed valuation. This would be an amount considerably higher than the tax-cap limited amount of \$880,777. At April 30, 2022 the District has total outstanding general obligation (limited series) bonds totaling \$877,895.

There is another type of general obligation bond subject to statutory state limits. In the case of general obligation referendum (voted on) bonds, at the time of issuance of the referendum bonds, the District's total indebtedness including the proposed referendum approved bonds may not exceed the legal limit of 2.875% of the District's last certified assessed valuation. At April 30, 2022 the District has no general obligation referendum approved bonds.

As shown in Table 4 at April 30, 2022 the District has total outstanding bonded debt of \$13,955,000. This entire amount is backed by the full faith and credit of the Urbana Park District.

The following Comparative Statement of Long-term debt for the governmental activities.

Table 4
Comparative Statement of Long-Term Debt

	Governmental Activities		
	2022	2021	
General Obligation Bonds	\$ -	\$ 863,535	
Alternative Revenue Bonds	13,955,000	14,460,000	
Premium on Alternate Revenue Bonds	993,169	1,049,386	
Compensated Absences	258,353	276,025	
Net Pension Liability	-	98,498	
OPEB Liability	216,747	221,698	
	\$15,423,269	\$16,969,142	

During the year, \$1,368,535 of bonded debt was retired and \$877,895 was issued.

Management Discussion and Analysis April 30, 2022

Additional information on the Urbana Park District long-term debt can be found in Note 5 of this report.

Economic Factors and Next Year's Budget:

The District continues to monitor the changing economic conditions surrounding the COVID-19 pandemic. The pandemic has had an adverse impact on global financial markets and economics, including the financial markets and economic conditions in the United States. The impact of the COVID-19 pandemic on the U.S. economy is broad based and has negatively impacted national, state, and local economies. At the District level, revenue-producing programming and facility rentals continue to be affected by state and local health mandates, as well as lasting changes in consumer habits. The District budgeted for fiscal year 2023 with assumptions for capacity limits based on Phase 4 of the state's Restore Illinois plan and made adjustments to expenditures to account for reduced revenues.

The equalized assess value (EAV) of taxable property in the District for tax levy year 2020 reported in fiscal year 2022 was \$608,883,662. The District's tax base experienced growth of 1.4% in fiscal year 2022, reflective of an \$8,395,162 increase in EAV. New construction continues in the District but it is hindered by a decline to the value of existing taxable real estate. There is a 3.15% increase to EAV for property tax levy year 2021 reported in fiscal year 2023. The District budgeted for fiscal year 2023 accordingly.

The District's tax rate in levy year 2020 (collected in calendar year 2021 and received in fiscal year 2022) is 1.2705, or 127.05 cents per \$100 of EAV. The tax rate for property taxes received and reported in the next fiscal year cycle, 2023, is 1.2784.

Property tax caps, imposed by the Property Tax Extension Limitation Law, limit the District's annual tax levy increase to 5% or the change in the consumer price index, whichever is less. The change in the consumer price index for levy year 2020, fiscal year 2022, was 2.3%. The change in the consumer price index for levy year 2021, fiscal year 2023, is 1.4%. Additionally, if new construction occurs in a Tax Increment Financing District, then the property is not included for a number of years in the District's property tax levy. Property taxes account for 51% of the District's revenues, including bond receipts, in the fiscal year 2023 budget.

The reader is referred to Note 2, on pages 28-26, regarding property taxes receivable.

The District has been providing services at the request of its citizens for 114 years since October 9, 1907.

Request for Information:

This financial report is designed to provide a general overview of the Urbana Park District's finances, comply with finance related laws and regulations, and demonstrate UPD's commitment to public accountability to all those with an interest in the Urbana Park District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Timothy A. Bartlett, Executive Director, Urbana Park District, 303 West University Avenue, Urbana, IL 61801.

NOTES TO FINANCIAL STATEMENTS

April 30, 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Urbana Park District, Urbana, Illinois (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

a. Reporting Entity

The District was organized in October 1907, as a separate unit of local government, a municipal corporation which operates under the statutes of the State of Illinois. The Board of Park Commissioners is composed of five commissioners which form the legislative branch of the District and are elected to six year terms in biennial public elections. The District provides a wide range of recreational services, including over 24 parks and six recreational facilities designed to help meet the leisure needs of the people in the Urbana, Illinois area.

The District is a body corporate and politic established under Illinois Compiled Statutes (ILCS). The District is considered to be a primary government as defined by GASB Statement No. 14, *The Financial Reporting Entity*, as amended by GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*, and GASB Statement No. 61, *The Financial Reporting Entity: Omnibus – an amendment of GASB Statement No. 14 and No. 34*, since its board is separately elected and fiscally independent. In accordance with these pronouncements, the basic financial statements include all funds for which the District is financially accountable. The District has also considered all other potential organizations for which the nature and significance of their relationships with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The criteria used by the District to include component units within its reporting entity are financial accountability and the nature and significance of the relationship. The Urbana Parks Foundation, while a potential component unit, is not significant to the District and, therefore, has been excluded from its reporting entity.

b. Fund Accounting

The District uses funds to report on its financial position and the changes in its financial position. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

The District's funds are classified into the following categories: governmental and proprietary.

Governmental funds are used to account for all or most of a district's general activities, including the collection and disbursement of restricted, committed, or assigned monies (special revenue funds), the funds restricted, committed, or assigned for the acquisition or construction of general capital assets (capital projects funds), and the funds restricted, committed, or assigned for the servicing of general long-term debt (debt service funds) and the management of funds held in trust for park district services (permanent funds). The General Fund is used to account for all activities of the government not accounted for in some other fund.

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the District (internal service funds).

c. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all activities of the District as well as the discretely presented component unit. The effect of material interfund activity has been eliminated from these statements, except for those between the primary government and the discretely presented component unit. Interfund services provided and used are not eliminated. Governmental activities, which normally are supported by taxes, intergovernmental revenues, and other non-exchange revenues are reported separately from business-type activities, which rely to a significant extent on user fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment.

c. Government-Wide and Fund Financial Statements (Continued)

Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues. Contributions of land by developers under land/cash ordinances, if any, are reported as general revenues - contributions on the statement of activities.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds:

The General Fund is the District's primary operating fund. It accounts for all activities except those legally or administratively required to be accounted for in the other funds.

The Recreation Fund, a special revenue fund, accounts for the revenue derived from a property tax levy and fees collected to fund recreational programs offered to the residents of the District.

The Capital Projects Fund accounts for financial resources that are restricted, committed, or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

The District reports the following major proprietary fund:

The Urbana Indoor Aquatic Center Fund accounts for the operations of the Urbana Indoor Aquatic Center as outlined in an intergovernmental agreement with the Urbana School District #116.

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance).

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Operating revenues and expenses are directly attributable to the operation of the proprietary funds. Non-operating revenue/expenses are incidental to the operations of these funds.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are considered to be measured and available only when cash is received and earned by the District. As a result of this policy, there are no revenues susceptible to accrual. The District considers receipts received by year end to be available. Expenditures are recorded when the related liability is incurred. Principal and interest on general long-term debt are recorded as expenditures become due.

e. Cash and Cash Equivalents

Cash and cash equivalents include deposits at financial institutions, short-term investments with original maturities at issuance of three months or less, and funds held in money market mutual funds at depository banks.

f. Investments

Under Illinois law (30 ILCS 235/2), the District may invest excess funds in interest bearing deposits at federally insured banks and savings and loans, commercial paper, short-term discount obligations of the Federal National Mortgage Association, and securities issued by the U.S. Treasury or other federal agencies. Investments in bonds, notes, and negotiable certificates of deposit are held at fair value. Other investments are held at cost or amortized cost (external investment pools), which vary immaterially from fair value.

g. Receivables

Receivables are reported at the estimated net realizable amounts from third-party payers and others for services rendered. Receivables are stated at the amount management expects to collect on outstanding balances.

h. Interfund Transactions

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Advances to/from other funds are offset by nonspendable fund balance because they do not represent expendable, available financial resources.

Interfund service transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions, except interfund service transactions and reimbursements, are reported as transfers.

i. Prepaid Items/Expenses

Certain payments to vendors reflect costs applicable to future accounting periods, and are recorded as prepaid items/expenses, if any, using the consumption method. Such amounts are offset by nonspendable fund balance in the governmental fund financial statements.

i. Capital Assets

Capital assets purchased for use in governmental activities are recorded as expenditures in governmental fund financial statements at the time of purchase. Capital assets of governmental activities are reported in the government-wide financial statements offset by accumulated depreciation. Capital assets are valued at actual or estimated historical cost while donated capital assets are valued at their acquisition value on the date donated. Equipment valued at or above \$10,000, buildings and improvements valued at or above \$20,000, land improvements and infrastructure valued at or above \$20,000, and land of any value are capitalized. Assets that appreciate in value are capitalized if valued at more than \$10,000.

Major outlays for capital assets and improvements are capitalized as projects are constructed. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are not capitalized. Capital assets are depreciated using the straight-line method over the following estimated useful lives:

j. Capital Assets (Continued)

Assets	Years
Duilding improvements	15
Building improvements	
New construction	40
Land improvements	15
Computers and office equipment	5
Infrastructure	
Roads and paved surfaces	15
Bridges	50
Furniture	7
Other equipment	5
Major appliances	7
Park and recreation features	12
Playground equipment	12
Vehicles	5

k. Long-Term Obligations

In the government-wide financial statements and the proprietary funds in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund financial statements. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs are reported as expenses.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

1. Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused paid leave based on years of service, to a limit of 280 hours. All paid leave is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations or retirements.

1. Compensated Absences (Continued)

Any days in excess are forfeited without approval from the Executive Director. In the event of termination, an employee is reimbursed for the current year's accumulated vacation days. The General, Recreation, and Museum Funds are typically used to liquidate these liabilities.

m. Net Position/Fund Balances

In the fund financial statements, governmental funds report nonspendable fund balance for amounts that are either not in spendable form or legally or contractually required to be maintained intact. Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for use for a specific purpose, or externally imposed by outside entities. None of the restricted fund balance resulted from enabling legislation adopted by the District. Committed fund balance is constrained by formal actions of the District's Board of Park Commissioners, which is considered the District's highest level of decision-making authority. Formal actions include ordinances approved by the Board of Park Commissioners. Assigned fund balance represent amounts constrained by the District's intent to use them for a specific purpose. The authority to assign fund balance can be delegated to a District Board Committee or the District's Executive Director through the approved fund balance policy of the District. Any residual fund balance in the General Fund is reported as unassigned. Deficits in other governmental funds are also reported as unassigned.

The District's minimum fund balance policy sets targets for the unassigned fund balances in the General Fund and total fund balance in certain special revenue funds. The targets for the minimum fund balances will take a number of levy cycles to ensure that the funds are operating in the target ranges. An overview of the target fund balances is listed below:

General Fund - Unassigned fund balance no less than two months or 17% and no more than six months or 50% of the sum of annual operating expenditures of the General Fund plus routine transfers-out from the General Fund to other funds.

Recreation Fund - Sum of restricted and unrestricted fund balance in the Recreation Fund is not less than two months or 17% and not more than four months or 33% of operating expenditures of the Recreation Fund including routine transfers-out to the General Fund for administrative services and to the General Fund for further transfer to the Bond Principal and Interest Fund as an additional source of revenue for required annual payments on the District's alternate revenue bonds.

m. Net Position/Fund Balances (Continued)

Museum Fund - Sum of restricted and unrestricted fund balance in the Museum Fund is not less than two months or 17% and not more than four months or 33% of operating expenditures of the Museum Fund including routine transfers out to the General Fund for administrative services and to the General Fund for further transfer to the Bond Principal and Interest Fund as an additional source of revenue for required annual payments on the District's alternate revenue bonds.

IMRF Fund - Sum of restricted and unrestricted fund balance in the IMRF Fund is not less than six months or 50% and not more than nine months or 75% of annual operating expenditures of the IMRF Fund.

Liability Insurance Fund - Sum of restricted and unrestricted fund balance in the Liability Insurance Fund is not less than \$200,000 and not more than \$300,000.

The District's flow of funds assumptions prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending, the District considers committed funds to be expended first, followed by assigned, and then unassigned funds.

In the government-wide financial statements, restricted net position are legally restricted by outside parties for a specific purpose. None of the net position is restricted as a result of enabling legislation adopted by the District. Net investment in capital assets is the book value of capital assets less outstanding principal balances of debt that was issued to construct the capital assets.

n. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

o. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows, liabilities and deferred inflows and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

p. In-Kind Contributions

The District has various agreements with local media companies that provide publicity for the District's events in return for recognition at the District's events and in District publications. The District does not record in-kind contribution revenue or expense related to these agreements.

q. Postponement of Authoritative Guidance

In accordance with the provisions of GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*, the District has delayed the implementation of GASB Statement No. 87, *Leases*, to April 30, 2023.

2. PROPERTY TAXES

Property is assessed by elected township assessors at one-third the fair value as of January 1 each year. This is the date, called the lien date, on which property taxes "attach" to the property. The township assessors' books are turned into the County Supervisor of Assessments by April 15. The Board of Review, a three-member panel appointed by the County Board, takes action on assessment complaints and applies individual township multipliers to those townships, which are not assessed at one-third. This process equalizes the average ratio of assessments to fair value among townships. The Illinois Department of Revenue analyzes the work of the Board of Review and may assign a countywide multiplier to bring the entire County's ratio into line with other counties throughout the state.

Taxpayers may file a complaint with the Board of Review if they believe assessments are too high and may make further appeal to the state Property Tax Appeals Board. However, tax levies are determined by local governments, not by assessors.

Illinois statutes require the payment of property taxes in two installments, typically due June 1 and September 1, and require that tax bills be mailed 30 days prior to the first installment. Property tax bills mailed for fiscal year 2022 were based on equalized assessed value as of January 1, 2021 and on tax levies set in November 2020.

2. PROPERTY TAXES (Continued)

The County Treasurer is also the County Collector and is in charge of collecting and distributing property taxes. The Collector generally distributes taxes to the taxing bodies shortly after taxes are paid. The County may not keep tax receipts on behalf of other units of local government beyond 30 days. For 2021, all property taxes were distributed by December 2021. Interest earned on taxes before distribution goes to the local governments.

Property taxes are recognized as revenue in the year intended to finance, regardless of when collected. The 2021 taxes are intended to finance the 2023 fiscal year and are not considered available for current operations and, therefore, are shown as a deferred inflow (unavailable or unearned revenue). The 2021 tax levy, which attached as an enforceable lien on property as of January 1, 2021, has been recorded as a receivable and unavailable/deferred revenue as of April 30, 2022 as the tax has been levied by the District and is intended to fund the 2023 fiscal year.

3. CASH AND INVESTMENTS

Illinois Compiled Statutes (ILCS) and the District's investment policy authorize the District to make deposits/invest in Interest bearing accounts, certificates of deposit or interest bearing time deposits or any other investment constituting direct obligations of any bank as defined by the Illinois Banking Act, obligations of the U.S. Treasury and U.S. agencies, state and local government bonds, money market funds registered under the Investment Company Act of 1940 or agreements to repurchase these same obligations, short-term commercial paper rated within the three highest classifications by at least two standard rating services and The Illinois Funds and the Illinois Park District Liquid Asset Fund (a money market fund created by the State legislature under the control of the Illinois Association of Parks that maintains a \$1 share value).

It is the policy of the District to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the District and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objective of the policy is safety of principal, liquidity, and return on investments.

Custodial Credit Risk - Bank Deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's bank deposits may not be returned to it. The District's investment policy addresses custodial credit risk by requiring that all deposits in excess of federal depository insurance are to be collateralized by a pledge of securities from the depository bank at 110% of the uninsured amount. At April 30, 2022, none of the District's bank balance of \$5,595,043 was exposed to custodial credit risk.

NOTES TO FINANCIAL STATEMENTS (Continued)

3. CASH AND INVESTMENTS (Continued)

Custodial Credit Risk - Bank Deposits (Continued)

At April 30, 2022, \$5,342,802 of the District bank balance was secured by pledged collateral effectively held in the District's name with a fair value of \$5,674,479 at April 30, 2022.

Credit Risk and Interest Rate Risk - External Investment Pools

The Illinois Public Treasurers' Investment Pool, known as The Illinois Funds, operates as a qualified external investment pool in accordance with the criteria established in GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, and thus, reports all investments at amortized cost rather than fair value. The investment in The Illinois Funds by participants is also reported at amortized cost. The Illinois Funds does not have any limitations or restrictions on participant withdrawals. The Illinois Treasurer's Office issues a separate financial report for The Illinois Funds which may be obtained by contacting the Administrative Office at Illinois Business Center, 400 West Monroe Street, Suite 401, Springfield, Illinois 62704. At April 30, 2022, the District held \$3,580,874 in The Illinois Funds.

The value of the District's position in the Illinois Park District Liquid Asset Fund is equal to the value of the District's fund shares, which maintain a \$1 net asset value. The Illinois Park District Liquid Asset Fund is regulated by private rating agencies. The fund has a AAAm rating from Standard and Poor's. The assets of this fund are mainly invested in securities issued by the United States government or agencies related to the United States and valued at amortized cost. Generally, assets not invested in United States government securities are fully collateralized by pledged securities. The time to maturity of the investments in this external investment pool averages less than one year. The District has no restrictions on withdrawing funds from this external investment pool. At April 30, 2022, the District held \$4,918,183 in the Illinois Park District Liquid Asset Fund.

Investments

At April 30, 2022, the District held the following investments:

Type	Amount
Certificates of deposit	
Non-negotiable Non-negotiable	\$ 2,482,607
Negotiable	20,287
Money market accounts	163,499
U.S. Treasury notes	491,303
U.S. agency obligations	448,676
Illinois Park District Liquid Asset Fund	4,918,183
Illinois Funds	3,580,874
TOTAL	\$ 12,105,429

3. CASH AND INVESTMENTS (Continued)

Investments - Restricted

At April 30, 2022, the District's governmental activities and Capital Projects Fund hold \$6,158,485 of investments for capital projects.

Fair Value Measurements

The District categorize the fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The District has the following recurring fair value measurements as of April 30, 2022: the U.S. Treasury notes valued using quoted prices in active markets for identical assets (Level 1 inputs). The U.S. agency obligations and the negotiable certificates of deposit are valued using quoted matrix pricing models (Level 2 inputs).

Interest Rate Risk - Investments

Interest rate risk is the risk that a change in the market rate of interest for a category of debt securities will negatively impact the fair value of a debt security. Interest rate risk is not directly addressed by the District's investment policy except for the general goal to "remain sufficiently liquid to meet operating requirements."

The following table depicts the Village's investment subject to interest rate risk as of April 30, 2022:

		Investment Maturities (in Years)			
		Less			Greater
Investment Type	Fair Value	than 1	1-5	6-10	than 10
U.S. Treasury notes U.S. agency obligations Negotiable certificates of deposit	\$ 491,303 448,676 20,287	\$ 120,296 -	\$ 240,255 249,353 20,287	\$ 130,752 199,323	\$ - -

NOTES TO FINANCIAL STATEMENTS (Continued)

3. CASH AND INVESTMENTS (Continued)

Credit Risk - Investments

The District limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by requiring investments primarily in obligations guaranteed by the United States Government or securities issued by agencies of the United States Government that are explicitly or implicitly guaranteed by the United States Government and local government bonds. The U.S. Treasury obligations are rated AAA, the U.S. agency obligations are rated AA+, and the negotiable certificate of deposits are unrated.

Custodial Credit Risk - Investments

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the District will not be able to recover the value of its investments that are in possession of an outside party. It is the practice of the District to limit its exposure to custodial credit risk by requiring that all security transactions that are exposed to custodial credit risk are processed on a delivery versus payment (DVP) basis, with the underlying agent separate from where the investment was purchased on the District's name. The Illinois Funds and the Illinois Park District Liquid Asset Fund are not subject to custodial credit risk.

Concentration of Credit Risk - Investments

Concentration of credit risk is the risk that the District has a lack of diversification resulting in concentrated risk based on one type of investment. The District's investment policy does not directly address concentration of credit risk.

At April 30, 2022, the District had no significant investments (other than United States Government guaranteed obligations) in any one organization (except for individual mutual fund investments, Illinois Funds, or Illinois Park District Liquid Asset Fund) that represent 5% or more of the District's investments.

4. CAPITAL ASSETS

Capital asset activity for the year ended April 30, 2022 was as follows:

	Balances May 1	-	Increases	Б	Decreases	Balances April 30
GOVERNMENTAL ACTIVITIES						
Capital assets not being depreciated						
Art collection	\$ 383,763	\$	-	\$	-	\$ 383,763

GOVERNMENTAL ACTIVITIES						
CAPITAL ASSETS, NET	\$ 25,245,843	\$	467,298	\$	_	\$ 25,713,141

Depreciation expense was charged to functions/programs of the primary government as follows:

GOVERNMENTAL ACTIVITIES

Culture and recreation

\$ 1,402,143

TOTAL DEPRECIATION EXPENSE - GOVERNMENTAL ACTIVITIES \$ 1,402,143

5. LONG-TERM DEBT

The following is a summary of changes in long-term debt for the year ended April 30, 2022:

	Balances May 1	Additions	Reductions	Balances April 30	Current Portion
GOVERNMENTAL					
ACTIVITIES					
General obligation bonds	\$ 863,535	\$ -	\$ 863,535	\$ -	\$ -
Alternate revenue bonds	14,460,000	-	505,000	13,955,000	530,000
Unamortized premium	1,049,386	-	56,217	993,169	=
Compensated absences	276,025	356,432	374,104	258,353	258,353
Net pension liability - IMRF*	98,498	-	98,498	-	-
OPEB liability	221,698	-	4,951	216,747	43,349
TOTAL GOVERNMENTAL					
ACTIVITIES	\$ 16,969,142	\$ 356,432	\$ 1,902,305	\$ 15,423,269	\$ 831,702

The General Fund, Recreation Fund, and Museum Fund typically liquidates the compensated absences. The General Fund typically liquidates the OPEB liability. The IMRF Fund typically liquidates the net pension liability - IMRF.

The outstanding debt as of April 30, 2022 consists of the following individual amounts:

Alternate Revenue Bonds

	Fund Retired by	Balances January 1	Additions	Reductions	Balances December 31	Current Portion
\$14,950,000 General Obligation Park Bonds (Alternate Revenue Source), Series 2019A, dated December 23, 2019, due in annual installments of \$490,000 to \$1,015,000 on December 15, 2020 to December 15, 2039. Interest at 3.00% to 5.00% is payable semiannually on June 15 and December 15.	Bond Principal and Interest	\$ 14,460,000	\$ -	\$ 505,000	\$ 13,955,000	\$ 530,000
TOTAL ALTERNATE REVENUE BONDS		\$ 14,460,000	\$ -	\$ 505,000	\$ 13,955,000	\$ 530,000

^{*}The net pension - IMRF balance was an asset as of April 30, 2022.

5. LONG-TERM DEBT (Continued)

The alternate revenue bonds are general obligations of the District but are payable from general revenues derived by the District's operation or from proceeds of the District's annual general obligation bond issue. As a general obligation, the bonds are also secured by an annual property tax levy, which the District will abate as long as the pledged revenues are sufficient to pay debt service requirements. The debt agreement has no terms related to significant events of default or termination events with finance-related consequences, or subjective acceleration clauses.

The District has pledged future revenues to repay the principal and interest of the 2019A alternate revenue bonds. Principal and interest on these bonds are payable through December 2039 from the District's general revenues (General Fund revenues) or proceeds from the annual general obligation bond. Annual principal and interest payments on the alternate revenue bonds are expected to require approximately a maximum of 43% of general revenues or 125% of the proceeds of the annual general obligation bond. Principal and interest paid in fiscal year 2022 was \$505,000 and \$544,500, respectively. For fiscal year 2022, the District's General Fund revenue was \$2,473,588 and the proceeds of the annual general obligation bond were \$877,895. At April 30, 2022, pledged future revenues totaled \$18,829,850, which is the amount of the remaining principal and interest on the bonds.

The future principal and interest payments required on the alternate revenue bonds outstanding as of April 30, 2022 are as follows:

	Al	Alternate Revenue Bonds						
Fiscal	G	Governmental Activities						
Year	Principal		Interest		Total			
2023	\$ 530,00	0 \$	519,250	\$	1,049,250			
2024	555,00	0	492,750		1,047,750			
2025	580,00	0	465,000		1,045,000			
2026	610,00	0	436,000		1,046,000			
2027	640,00	0	405,500		1,045,500			
2028-2032	3,695,00	0	1,530,500		5,225,500			
2033-2037	4,385,00	0	846,600		5,231,600			
2038-2040	2,960,00	0	179,250		3,139,250			
TOTAL	\$ 13,955,00	0 \$	4,874,850	\$	18,829,850

7. INDIVIDUAL FUND DISCLOSURES

Interfund Transfers

Interfund transfers during the year ended April 30, 2022 consisted of the following:

Transfers	Transfers
In	Out
\$ 1,974,429	\$ 2,240,000
11,572	994,310
1,058,700	-
1,135,110	952,581
7,080 \$ 4 186 891	\$ 4,186,891
	In \$ 1,974,429 11,572 1,058,700 1,135,110

The purposes of significant interfund transfers are as follows:

- \$1,050,000 transferred to the Bond Principal and Interest Fund (Nonmajor Governmental) from the General Fund was for debt service. The transfer will not be repaid.
- \$1,000,000 transferred to the Capital Projects Fund from the General Fund to cover capital outlay. The transfer will not be repaid.
- \$400,000 transferred to the General Fund from the Museum Fund (Nonmajor Governmental) to support general operations. The transfer will not be repaid.
- \$960,000 transferred to the General Fund from the Recreation Fund to support general operations. The transfer will not be repaid.
- \$474,429 transferred to the General Fund from the Replacement Tax Fund (Nonmajor Governmental) to classify the Replacement Tax Fund as part of the General Fund.

NOTES TO FINANCIAL STATEMENTS (Continued)

8. RISK MANAGEMENT

The District is exposed to various risks related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and net income losses. To limit exposure to employee health risks, the District has purchased third party indemnity insurance.

IPARKS is a public entity risk pools consisting of park districts, forest preserve districts, special recreation associations and certain nonprofit organizations serving the needs of public entities formed in accordance with the terms of an intergovernmental cooperative agreement among its members.

The IPARKS uses reinsurance and excess risk-sharing arrangements to reduce its exposure to loss. These agreements permit recovery of a portion of its claims from reinsurers and a risk-sharing pool; however, they do not discharge the IPARKS' primary liability for such payments. The IPARKS is a member of American Public Entity Excess Pool (APEEP), which is also administered by York Risk Pooling Services, Inc. (YORK). APEEP provides the IPARKS with an excess risk-sharing program. Under this arrangement, the IPARKS retains insured risks up to an amount specified in the contracts. The Board of Directors and YORK periodically review the financial strength of the IPARKS and other market conditions to determine the appropriate level of risk the IPARKS will retain.

Losses exceeding the per occurrence self-insured and reinsurance limit would be the responsibility of the District.

The relationship between the District and IPARKS is governed by a contract and by-laws that have been adopted by resolution of the District's governing body. The District is contractually obligated with IPARKS, its claims administrator and attorneys in claims investigation and settlement, and to follow risk management procedures as outlined by IPARKS.

IPARKS is responsible for administrating the self-insurance program and purchasing excess insurance according to the direction of IPARKS counsel. IPARKS also provides its members with risk management services, including the defense of and settlement of claims, and established reasonable and necessary loss reduction and prevention procedures to be followed by all members.

Complete financial statements for IPARKS can be obtained from IPARKS's administration offices at 3155 West 14 Mile Road, Farmington Hills, MI 48334.

9. CONTINGENT LIABILITIES

In the normal course of events, the District makes various commitments and incurs certain contingent liabilities that are not reflected in the accompanying financial statements. Additionally, various legal proceedings are pending against the District. Management believes that the aggregate liability, if any, resulting from these will not be material after insurance coverage.

9. CONTINGENT LIABILITIES (Continued)

The District participates in a number of state and federally assisted programs. Under the terms of the programs, periodic audits may be required, and certain costs may be questioned as not being appropriate expenditures under the terms of these programs. Such audits could lead to reimbursements to grantor agencies. Based on prior experience, the District believes examinations would not result in any material disallowed costs for grant revenue recorded in these financial statements or from prior years.

During the year ended April 30, 2016, the District received approximately \$1,316,000 in surplus Tax Increment Financing (TIF) District III property tax funds from the City of Urbana, Illinois, following the closing of the TIF III District. A major taxpayer intends to seek a refund of property taxes paid to the TIF III District for nine years within the period of 2003 through 2012 totaling a maximum of approximately \$1,106,000 of the amount paid to the District. As of the date of the Auditor's Report, no claims have been made directly against the District by the major taxpayer. In addition, at this stage in the negotiation process, a determination of the ultimate outcome of the claim against the City of Urbana and the resulting impact on the District cannot be made. The District has recorded this in unearned revenue.

10. INTERGOVERNMENTAL AGREEMENT

The District maintains an intergovernmental agreement with Urbana (Illinois) School District #116 for the operation of the Urbana Indoor Aquatic Center. The agreement term runs through April 30, 2022, unless earlier terminated by mutual consent. The annual operation of the facility is funded jointly, but the management and administration of the facility are the responsibility of the District. The expenses of the facility are funded by the facility's revenues and contributions from each government to cover remaining expenses. The District will make a specific contribution of one half the facility manager's salary annually. The District will contribute 50% of the investment income of the English Indoor Pool Fund. The remaining operating costs will be split 50/50. Capital expenditures will be split 50/50 up to \$80,000. The District will contribute 40% of all capital expenditures over \$80,000 while the School District pays the remaining 60%. The District will receive an administrative fee of 1.5% of annual expenses. As of April 30, 2022, Urbana (Illinois) School District #116 owes \$257,142 to the District for the operation of the facility.

11. FUTURE COMMITMENTS

Through the date of the auditor's report, the District has entered into 22 contracts related to various construction projects and equipment purchases. The total contractual commitment is approximately \$8,644,000. As of April 30, 2022, approximately \$5,082,000 has been incurred and expended on these contracts and approximately \$3,562,000 remains to be incurred. The majority of the remaining commitment amount will be paid from the Capital Projects Fund in fiscal year 2023.

NOTES TO FINANCIAL STATEMENTS (Continued)

12. RELATED PARTY

The Urbana Parks Foundation provides donations to the District to support various programs and capital projects. During the year ended April 30, 2022, the District received donation revenue totaling \$58,583 from the Urbana Parks Foundation. Additionally, during the year the District received \$1,149,730 of donations from the Urbana Parks Foundation for the construction of a new health and wellness facility, which is included in unearned revenue.

13. OPERATING LEASE

The District leases storage and a facility used for the recreation program from Champaign County. The lease runs through May 31, 2026. The lease may be cancelled by either party with four months' notice before a lease year end. The total expenditure incurred for this lease in fiscal year 2022 was \$54,848. Future rent expenditure increases are based upon changes to the CPI.

14. EMPLOYEE RETIREMENT SYSTEMS

Illinois Municipal Retirement Fund

The District's defined benefit pension plan, Illinois Municipal Retirement (IMRF), provides retirement, disability, annual cost of living adjustments and death benefits to plan members and beneficiaries. IMRF is an agent multiple-employer pension plan that acts as a common investment and administrative agent for local governments and school districts in Illinois. The Illinois Pension Code establishes the benefit provisions of the plan that can only be amended by the Illinois General Assembly. IMRF issues a publicly available financial report that includes financial statements and supplementary information for the plan as a whole but not by individual employer. That report may be obtained online at www.imrf.org.

Plan Administration

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members.

The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense, and liability when due and payable.

14. EMPLOYEE RETIREMENT SYSTEMS (Continued)

<u>Illinois Municipal Retirement Fund</u> (Continued)

Plan Membership

At December 31, 2021, IMRF membership consisted of:

Inactive employees or their beneficiaries currently receiving benefits	45
Inactive employees entitled to but not yet	
receiving benefits	82
Active employees	55
TOTAL	182

Benefits Provided

IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011 are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. Employees hired on or after January 1, 2011 are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute.

Contributions

Participating members are required to contribute 4.50% of their annual covered salary to IMRF. The District is required to contribute the remaining amounts necessary to fund IMRF as specified by statute. The employer contribution rate for the fiscal year ended April 30, 2022 was 10.15% of covered payroll.

NOTES TO FINANCIAL STATEMENTS (Continued)

14. EMPLOYEE RETIREMENT SYSTEMS (Continued)

<u>Illinois Municipal Retirement Fund</u> (Continued)

Actuarial Assumptions

The District's net pension liability (asset) was measured as of December 31, 2021 and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions.

Actuarial valuation date	December 31, 2021
Actuarial cost method	Entry-age normal
Assumptions Inflation	2.25%
Salary increases	2.85% to 13.75%
Interest rate	7.25%
Cost of living adjustments	3.00%

Asset valuation method Fair value

For nondisabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables and future mortality improvements projected using scale MP-2020.

Discount Rate

The discount rate used to measure the total pension liability at December 31, 2021 was 7.25%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended April 30, 2022, the District recognized pension expense of \$(407,630). At April 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to IMRF from the following sources:

	Οι	Deferred atflows of esources	Deferred Inflows of Resources		
Difference between expected and actual experience Changes in assumption Net difference between projected and actual	\$	399,261	\$	84,965	
earnings on pension plan investments Contributions subsequent to the measurement date		- 78,667		1,701,081	
TOTAL	\$	477,928	\$	1,786,046	

\$78,667 reported as deferred outflows of resources related to pensions resulting from district contributions subsequent to the measurement date will be recognized as a reduction of net pension liability in the reporting year ending April 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to IMRF will be recognized in pension expense as follows:

Year Ending April 30,	
2023 2024 2025 2026 2027	\$ (222,306) (524,353) (385,286) (254,840)
TOTAL	\$ (1,386,785)

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability (asset) to changes in the discount rate. The table below presents the net pension liability (asset) of the District calculated using the discount rate of 7.25% as well as what the District's net pension liability (asset) would be if it were calculated using a discount rate that is 1% age point lower (6.25%) or 1% age point higher (8.25%) than the current rate:

		Current	
1%	Decrease	Discount Rate	1% Increase
((6.25%)	(7.25%)	(8.25%)
\$	784,992	\$ (1,172,779)	\$ (2,710,854)

Net pension liability (asset)

15. OTHER POSTEMPLOYMENT BENEFITS

a. Plan Description

In addition to providing the pension benefits described in Note 10, the District provides postemployment health care benefits (OPEB) for retired employees through a single-employer defined benefit plan. The benefits, benefit levels, employee contributions and employer contributions are governed by the District and can be amended by the District through its personnel manual, except for the implicit subsidy which is governed by the State Legislature and ILCS. The plan does not issue a separate report. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. The activity of the plan is reported in the District's governmental activities.

b. Benefits Provided

The District provides continued health insurance coverage at the active employee rates to all eligible retirees in accordance with ILCS, which creates an implicit subsidy of retiree health insurance since the retiree does not pay an age adjusted premium. To be eligible for benefits, an employee must qualify for retirement under the District's retirement plan. In addition, the District has an agreement with a retiree that creates an explicit subsidy. Upon a retiree reaching age 65 years of age, Medicare becomes the primary insurer and the retiree is no longer eligible to participate in the plan, but can purchase a Medicare supplement plan from the District's insurance provider.

c. Membership

At April 30, 2021 (most recent information available), membership consisted of:

Inactive employees currently receiving benefit payments	-
Inactive employees entitled to but not yet receiving	
benefit payments	-
Active employees	47
TOTAL	47
Participating employers	47

d. Total OPEB Liability

The District's total OPEB liability of \$216,747 was measured as of April 30, 2022 and was determined by an actuarial valuation as of May 1, 2021.

e. Actuarial Assumptions and Other Inputs

The total OPEB liability at April 30, 2022, as determined by an actuarial valuation as of May 1, 2021, was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified. The total OPEB liability was rolled forward by the actuary using updating procedures to April 30, 2022, including updating the discount rate at April 30, 2022, as noted below.

Actuarial cost method	Entry-age normal
Actuarial value of assets	Not applicable
Salary increases	3.50%
Discount rate	3.42%
Healthcare cost trend rates	7.25% in 2021 to an ultimate trend of 4.50%

e. Actuarial Assumptions and Other Inputs (Continued)

The discount rate used in the determination of the total OPEB liability is based on the municipal bond rate. The municipal bond rate was based on the index rate for 20-year tax-exempt general obligation municipal bonds rated AA or better at April 30, 2022.

Probabilities of death for participants were according to RP2014 base rates projected to 2021 using scale MP2020. No additional provision (besides those already embedded) were included for mortality improvements beyond 2021.

Changes in assumptions	(27,950)		
Other changes			
Net changes		(4,951)	
BALANCES AT APRIL 30, 2022	\$	216,747	

Change in assumptions during 2022 was the discount rate increasing from 2.11% to 3.42%.

g. Rate Sensitivity

The following is a sensitivity analysis of the total OPEB liability to changes in the discount rate and the healthcare cost trend rate. The table below presents the total OPEB liability of the District calculated using the discount rate of 3.42% as well as what the District total OPEB liability would be if it were calculated using a discount rate that is 1%age point lower (2.42%) or 1%age point higher (4.42%) than the current rate:

	Current							
		Decrease (2.42%)	Discount Rate (3.42%)		1% Increase (4.42%)			
Total OPEB liability		238,270	\$	216,747	\$	196,759		

The table below presents the total OPEB liability of the District calculated using the healthcare rate of 4.50% to 7.25% as well as what the District's total OPEB liability would be if it were calculated using a healthcare rate that is 1% age point lower or 1% age point higher than the current rate:

	Current Healthcare						
		1% Decrease		Rate		1% Increase	
Total OPEB liability	\$	186,321	\$	216,747	\$	254,307	

h. OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended April 30, 2022, the District recognized OPEB expense of \$21,721. At April 30, 2022, the District reported deferred inflows of resources related to OPEB from the following sources:

	D Out Re	Deferred flows of esources		
Difference between expected and actual experience Assumption changes	\$	10,243 44,398	\$	31,882 43,408
TOTAL	\$	54,641	\$	75,290

h. OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Notes to Required Supplementary Information

The information presented was determined as part of the actuarial valuations as of January 1 of the prior fiscal year. Additional information as of the latest actuarial valuation presented is as follows: the actuarial cost method was entry-age normal; the amortization method was level percent of pay, closed and the amortization period was 22 years; the asset valuation method was five-year smoothed market; and the significant actuarial assumptions were an investment rate of return at 7.25% annually, projected salary increases assumption of 3.35% to 14.25% compounded annually and postretirement benefit increases of 3% compounded annually.

Changes in assumptions for 2022 related to the discount rate changing from 2.11% to 3.42%.

Changes in assumptions for 2021 related to change in discount rate used from 2.92% to 2.11%, healthcare inflation increase of 0.25%, and withdrawal, disability, and retirement rate changes.

Ultimately, this schedule should present information for the last ten years. However, until ten years of information can be compiled, information will be presented for as many years as is available.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

April 30, 2022

a. Budgetary Process

A proposed budget and appropriations ordinance are developed and made available for public hearing at least 30 days prior to final approval. Upon approval, the Board of Commissioners of the District legally enact an annual operating budget through passage of an ordinance. The appropriations ordinance is prepared by fund, expenditure object (i.e., salary and wages), and expenditure sub-object (i.e., salary and wages – full-time personnel).

b. Legal Level of Budgetary Control

The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the fund level. The District prepares both a working budget and an appropriations ordinance. The appropriations ordinance includes only summarized information and contains higher revenue and expenditure amounts than the working budget. The Board of Commissioners does this with the intention of allowing for higher expenditures if additional revenues become available during the year. The working budget is prepared by fund, department, program activity, object, and sub-object. The District's management may make transfers of budgeted amounts up to and including the department level. The budgetary expenditure comparisons in the basic financial statements are from the working budget and are presented at the fund level with summarizations at the object level (i.e., salaries and wages, fringe benefits, commodities, contractual services, and other expenditures). Appropriations are adopted on an annual basis for the General Fund, Special Revenue Funds (except the Brown Public Art Fund), Debt Service Funds, Capital Projects Funds, and Enterprise Funds. All appropriations lapse at year end.

c. Amendments to the Budget

Throughout the year, the board can make amendments within each fund, not to exceed an aggregate of 10 percent of the total appropriated amount of that fund. Likewise, after the first six months of the fiscal year have elapsed, the board may, by two-thirds vote, transfer from any appropriation item its anticipated unexpended funds to any other item of appropriation. The budgeted financial statements represented in this report reflect the final budget authorization. All operating budget appropriations lapse at the end of each fiscal year.

d. Budgetary Basis of Accounting

Formal budgetary accounting is employed as a management control for all funds of the District, and legal budgets are adopted for the general fund, special revenue funds, capital projects funds, debt service funds, and permanent funds. Budgets are adopted on a modified cash basis, which is a comprehensive basis of accounting other than GAAP.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION (Continued)

d. Budgetary Basis of Accounting (Continued)

The modified cash basis used as the budgetary basis provides for the accrual of expenses (accounts payable and accrued salaries) and recognition of revenue consistent with the modified accrual basis. Revenues are cash basis, which essentially equals the modified accrual basis used by the District due to the zero-day availability period used by the District.

e. Expenditures in Excess of Budget

No fund's actual expenditures exceeded budgeted appropriations for the fiscal year ending April 30, 2022.

COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES

MAJOR GOVERNMENTAL FUNDS

GENERAL FUND

General Fund - to account for all financial resources except those accounted for in another fund.

SPECIAL REVENUE FUND

Recreation Fund - to account for the restricted and assigned revenues for the expenditures related to the establishment and maintenance of the following activities: sports and fitness, visual and performing arts, youth and adult general interest, camps, teens, preschoolers, seniors and aquatics.

DEBT SERVICE FUND

Debt Service Fund - to account for the restricted, committed and assigned resources for, and the payment of, general long-term debt principal and interest.

CAPITAL PROJECTS FUND

Capital Projects Fund - to account for all restricted, committed and assigned resources used for the acquisition or construction of major capital facilities of a governmental unit.

Champaign County Clerk

^{*}Champaign County tax extension amount, also called the property tax levy.

^{**}In fiscal year 2014 a major taxpayer, which is a hospital, applied for and received an exemption for Levy Year 2012 after the District's EAV had been certified. The taxpayer received property tax bills, but because of the change in Illinois state tax law, is not expected to pay them.

Parkland College No. 505***		34,785,000	9.990%	 3,475,022
TOTAL OVERLAPPING DEBT	\$	58,175,000		 23,728,252
TOTAL DIRECT AND OVERLAPPING DEBT				\$ 39,554,316

Data Sources

Champaign County Clerk and the overlapping taxing bodies.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the District. This process recognizes that, when considering the Districts' ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore, responsible for repaying the debt, of each overlapping government.

^{*}Does not include \$13,195,000 of alternate revenue bonds which are paid from sources other than ad valorem taxes.

^{**}Does not include \$11,978,000 of alternate revenue bonds which are paid from sources other than ad valorem taxes.

^{***}Does not include \$4,515,000 of alternate revenue bonds which are paid from sources other than ad valorem taxes.

^{****}Presented net of original issuance discounts and premiums.
